Activities: Make Money Choices

Make Money Choices

Forming a budget is one of the most important parts of financial success. As you first enter the workforce, or even if you switch jobs, knowing how much money you will have available to spend on different aspects of your life will help you avoid debt and possibly even save some money for a rainy day.

To get started, select an option below

Choose Your Lifestyle

When you select this option, you will be asked a series of questions to help you determine the lifestyle you want to lead and how much it will cost you. When you are finished you can look at occupations that might support that lifestyle.

Budget how much money you'll need

Pick Your Salary

If you think you know how much money you are going to make, you can work backwards to see if that salary will support the lifestyle you want to lead. If it does not, you can search for alternative occupations that might.

Budget from a starting salary

Students can create a budget in two ways:

- Start with the lifestyle
- Start with an anticipated salary

Whether you buy groceries or eat out, food costs money. How much do you need each month to eat? Click on the statement below that best describes you or, if you know how much you will spend on food each month, enter that amount in the Monthly Cost box below.

- I mostly eat at home, and only keep the essentials in my house
- I mostly eat at home, and like to cook fancy foods.
- I mostly eat out, but normally nothing fancy
- I mostly eat out and like nice restaurants.

Monthly Cost

\$ 0

Next Section

Location: Placer

	+		+		+		+		+		+		+		+		=	
Housing		Utilities		Food		Entertainment		Clothes		Transport		Insurance		Education		Savings		Total
\$2,100		\$150		\$0		\$0		\$0		\$0		\$0		\$0		\$0		\$2,250

The results are tied to the **location** the zip code or county a student chooses.

Make Money Choices Budgets

The **budget summary** thoroughly breaks down how much a student will need per month and year to support the lifestyle of their choice.

Results will **enhance** future occupation searches.

Based on your responses, you will need to have a job where you take home **\$3,758** a month, or at least **\$45,091** a year when you include taxes.

Monthly Spending: \$3,758

Housing I own a used compact car	\$2,266
Utilities Mobile Phone Service, Gas, electric, water, and trash pickup., Internet	\$150
Food I mostly eat at home, and only keep the essentials in my house	\$150
Entertainment I go out once a week for a movie or a show.	\$100
Clothes I buy a new outfit every few months	\$50
Transport I own a used compact car	\$350
Insurance I'm under 26 and will be on my parents' plan	\$0
Education I plan to attend a state school and receive some financial aid	\$103
Savings I'd like to save at least 10% of what I spend	\$317
Other	\$0
Taxes Though only a rough estimate, without any deductions you will likely pay around \$272 in Federal Taxes and \$0 in State Taxes.	\$272

Below you can see how your budget choices relate to your overall budget.
